

A screenshot of a Windows command prompt window. The title bar at the top shows the file path "C:\Windows\system32\cmd.exe" and standard window controls (minimize, maximize, close). The command prompt has a black background with white text. The text displayed is as follows:

```
Please enter a character:  
K  
The ASCII Code for the character K is 75  
Press any key to continue . . . _
```

The text is left-aligned. The prompt "Please enter a character:" is followed by the user input "K" on the next line. The third line shows the result: "The ASCII Code for the character K is 75". The fourth line shows the prompt "Press any key to continue . . . _".
